

INDUSTRIAL SERIES

■ PRODUCT

CAF1-series

CAF2-series

CAF3-series

CAF4-series

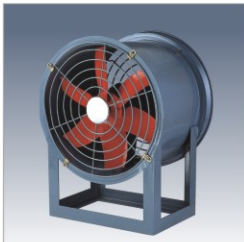

■ DESCRIPTION

- To provide high air volume ventilation for commercial and industrial premises
- Different sizes to suit different application requirement and environment
- Single phase or three phase for selection

MOTOR

- asynchronous induction type
- silicon steel stator and squirrel cage rotor
- Class B insulation system
- IP 44 protection

CASTOR

- wall mount, castor stand or with wheels

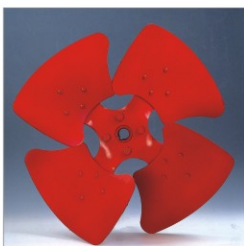

FRONT & BACK GRILLES

- optional for safety operation

CONNECTABLE DUCT CASING

- constructed from rolled sheet steel and finished with a tough epoxy paint coating

IMPELLERS

- well balanced steel impellers finished with epoxy paint coating

INDUSTRIAL SERIES

■ APPLICATIONS

- Ventilation and cooling of work places in production plant, factory, warehouse, etc.
- Cooling of motors, electrical machines, etc.
- Oven drying or paint drying
